U.S. SEED EXPORTS AT RECORD

$64 MILLION IN 1970-71

For the crop year ending June 30, 1971, sales of U.S. seeds totaled $64 million, an increase of 18.5 percent over 1969-70.

Record sales of grass and legume seeds (101.7 million lb. compared with 71.5 million lb. in 1969-70) accounted for the bulk of the increase, more than offsetting a sharp decrease in exports of seed corn and minor declines in sales of vegetable and flower seeds. Large purchases of sorghum seed by Mexico helped account for a 13 percent increase in that category compared with last year.

By region, Europe is still the best U.S. customer. The European Community accounted for $18.5 million, while sales to the rest of Europe totaled $9.2 million. Next in importance is North America, with purchases of $19.9 million, followed by Asia ($7.1 million), South America ($6.2 million), Oceania ($1.5 million), and Africa ($1.4 million).

SEEDS: U.S. exports, quantity and value,
1968-69 to 1970-71
